Best Practice 2:

Instill Social responsibility and engage in community participation

Objectives (100 words)

The main underlying concept under this practice is that the students are encouraged to participate in community service and outreach activities.

The objectives of this practice include:

- To develop among themselves a sense of social and civic responsibility
- To use their knowledge in finding a practical solution for the problems in and around their community
- To develop leadership skills and mobilize others in the community participation
- To practice the selfless service in daily life

Context (150 words)

The basic context behind this practice is to make an educational institute augment the needs of community through service by its students. This practice encourages the students to work hand-in-hand with the local community people in upliftment of the quality of life of the people especially in the rural areas. The general features that are needed to be addressed in the implementation of this practice includes adopting a nearby village and execute projects and programs like watershedmanagement and wasteland development, health,nutrition, hygiene, sanitation, mother and child care, family life education, common awareness programs clean and green drives etc. Volunteer during the times of natural calamitiesand national emergencies like covid-19 etc.

Practice

The institute under its NSS unit has adopted a nearby village namely Mundlapudi Gram Panchayat for conducting its NSS programs and provide service to the people through its activities. The NSS unit works collaboratively along with the villagers and plans its activities from time to time in coordination with the village sarpanch. Some of the activities that carried out by the students in this village include Janmabhoomi-Manaooru (Swach Bharat initiative), first aid measures, digital banking, regular health camps and awareness rallies, survey on toilets in each house, awareness on ethical voting, eye check-up programs, plantation, covid-19 awareness rallies, personal hygiene methods, menstrual awareness

among girls and women in the village, importance of water conservation and rain water harvesting, donation of food, clothes and medicines to the poor and needy etc. Apart from these activities, the students are encouraged to participate in awareness rallies in the Tiruchanoor town on special days like world health day, world no-tobacco day, world environment day, World AIDS day, World Diabetes day, World Antibiotic week, National voters day etc. On campus activities like blood donation camps, health check-up camps, gender equality, women empowerment, campus swachtha programs, International yoga day, Independence day and republic day etc were conducted regularly to instill a sense of social and civic responsibility among the students. A special mention is required on the activities related to "World Pharmacist Day" and "National Pharmacy week celebrations" and "Pharmacovigilance week" which are specific to pharmacy profession are being conducted regularly to serve the needs of the society along with the other health professionals which upholds the motto of service to the society and thus develops a socially responsible pharmacist.

Evidences of success

The NSS activities conducted in the Mundlapudi village contributed in the improvement of living standards of the people in the village in terms of Swachtha, minimization of open defecation, health awareness among the people, rational use of drugs, water conservation strategies, waste management etc. With the activities being carried out regularly by the NSS volunteers encouraged other students to engage in these activities very actively as never before. Health awareness rallies increased sense of responsibility among the local community people in the Tiruchanoor which was evident from more and more enquiries by the people about the awareness issues and their queries during the rallies. All these activities are well appreciated by the local authorities like Gram Sarpanch and Local Police departments.

Problems encountered and resources required

A meticulous planning and coordination is required for the successful planning and conduction of the program and this is executed by a well trained and experienced "NSS Program officer" of the college. As most of these programs require good financial resources, the funds released by the JNTUA university NSS cell and further supported by the college management is a very encouraging sign for the conduction of more and more programs of this kind. Last but not the least, the human resource and man power required to carry out these programs is fulfilled by the involvement of good number of NSS & student volunteers and Department of Pharmacy Practice.

REPORT

Name of the programme: Swachh Bharath

Organized by : NSS unit, Sri Padmavathi School of Pharmacy, Tiruchanoor

Venue of the Program: Mundlapudi

Our volunteers performed Swachh Bharath programme at some places full of dirt and waste in our adopted village, Mundlapudi. Before starting the cleaning process, our volunteers wore proper gloves and other requirements to prevent pathogenic ingestion because of direct contact with waste and dirt. Then they divided into groups and divided the area into subzones and collected the waste in their respective subzones. The dust was collected in the disposable bags and sealed and disposed in the specified areas from which dust disposal take place

REPORT

Name of the programme: A Work shop on first aid measures and personal hygiene

Organized by : NSS unit, Sri Padmavathi School of Pharmacy, Tiruchanoor

Venue of the Program :Mundlapudi.

Volunteers has conducted power yoga and body work outs, demonstrated students on drawing,demonstrated hand crafting,explained about good and bad touch pertaining to child abuse and directed to follow safety measures if they face these kind of circumstances.Apart from studies, students learnt the significance and practices of personal health, added skills to explore and excel in non-academic areas. Young minds will strongly register anything in their memories. Educating them regarding child abuse and good bad touch will greatly change their pattern of life if they were know about these before they suffer.

REPORT

Name of the programme: House to house awareness on water conservation

Organized by : NSS unit, Sri Padmavathi School of Pharmacy, Tiruchanoor

Venue of the Program : Mundlapudi.

Our volunteers were trained regarding water conservation methods by collecting data from text books, internet and some experienced family members. Later they prepared a plan of action to explain this to villagers and trained our volunteers before the interaction with villagers. Our volunteers divided into 8 teams with minimum five members of each and visited house to house for executing the intended action plan.

The water conservation methods, precautions for facing and safe guarding current hot weather conditions will play a significant effect on minimizing the effects of hot weather conditions.
